

Number Magic - 8 Steps to Creating Your Quest for Success

With Jen Duchene, AstroNumerologist

Success is an emotional experience, a journey measured not merely by money, fancy cars or a job promotion. How do you know what success is *for you*? That you're on the right path to realizing the vision that will bring you what you desire?

In Numerology, the word success equals "8," the highest number in the manifesting triad. This means that **you have the power to define and craft success for yourself** – on your terms – to create a vision that aligns with your unique voice and values! It takes stepping into your power of manifesting, and keeping on top of the internal process that happens along the way.

To truly embody success from the inside out, you need a step-by-step system to guide you so you know you are on the path, that you're staying clear and present to the process. Numbers are energetic vibrations that reveal the treasure map of your life purpose, gifts, and potential. **Using what the numbers tell you can ignite your own potent version of success.**

I invite you to embark on a journey with me, using the power of numbers as your guide. Read these 8 Steps carefully, embrace their message, answer the questions, perhaps do some journaling on what comes up for you. *Bon voyage!*

Number 1 – Vision The BIG IDEA, the thing that represents success to you. Think about and picture what your Big Idea looks like. Take ownership of it and immerse yourself in the idea, knowing you can. "I am going to build a boat to travel the world." What possibilities will you invite into your vision?

Number 2 – Connection Ask yourself: “How do I listen, show up and build honest relationships so that this boat stays afloat?” A boat needs a trustworthy crew. Surrender to your passion by asking your community for help. What resources, connections and collaboration do you need to bring your Big Idea into the world? “Who is going to help me build my boat, give me money, offer encouragement and love for my idea?” What limits will you test to get this boat to water?

Number 3 – Expansion The joyful emotional birth of the vision happens after collaboration. Map out the dream by allowing your expression to flow freely, activating your creative child within. What will bring out your expansive Big Idea voice? “I’m building a miniature model of my boat’s design, and visualizing the incredible places I will visit.” Be willing to be wild!

Number 4 – Creation Build your foundation to form your Big Idea. What takes an idea from vision to viable is the absolute focus on the tangible systems and pieces that build upon one another to bring that vision into a reality. “We have a design, we have a plan, we have the materials – let’s build this boat!” What is needed to make the boat seaworthy to survive the rough waters and take us on our adventure?

Number 5 – Release Representing freedom and change, let go of fixed ideas and known outcomes. Release your Big Idea (now a creation) by broadcasting it. Tell the world. Pay attention to unusual weather ahead and be willing to shift course into fun. “We’re launched! Smooth sailing ahead, and who knows what interesting port may draw us in tomorrow?” What unexpected opportunity is beckoning?

Number 6 – Response Time to take response-ability and make space for fears, celebrations, love and the comfort of family and home. “We need to rally the crew, take stock and adjust our sea legs.” What is needed to create safety?

Number 7 – Alignment Check-in time – is this passage of passion on track? Are you in alignment with your beliefs about your creation? What feelings, needs or new information might need integration? “I’m letting the boat rock on the gentle waves, loving listening to the sound of the water lapping the sides, refining my course to make this a truly memorable trip.” What needs adjusting enroute?

Number 8 – Success What has this manifestation delivered – joy, riches, experience? Are your senses and beliefs supported by your actions? Do you feel the balance of peace and plenty in the success you are leading? How will you sustain or grow this successful voyage of yours? “My plan is to set sail with paying guests on a spirited adventure and practice improving the experience.”

By following these *8 Steps to Creating Your Quest for Success*, you increase your clarity and take charge of your journey, fully present to manifesting the successes you envision in any area of your life. These are the successes that will bring you fulfillment, joy, satisfaction, and living BIG.
